PROFILE

Frontend Developer based in Peshawar with **2+ years of hands-on experience** designing, developing, and deploying modern, high-converting websites. Currently pursuing a **Bachelor of Science in Nursing (BSN)**, bringing a unique dual discipline of medical-grade precision, patient-centered empathy, and rigorous attention to detail into frontend engineering. Specialized in WordPress, Elementor Pro, and vanilla web architectures, delivering commercial client platforms with sub-2.5s page load performance and clean, responsive UI layouts.

EXPERIENCE & COMMERCIAL CLIENT PROJECTS

Ivan's Studios — ivanalexx.com
2026

Freelance Client Project · Video Production Agency

Designed and developed a responsive studio website for an international video production brand. Implemented selected project showcase, services breakdown, client testimonials, white-label agency capabilities, multi-step process section, and high-converting contact CTAs.

HTML/CSS · JavaScript · Responsive UI · Business Website · Speed 95+

Arshad Tiles — Commercial Catalog Website
2025

Freelance Client Project · Retail & Sanitary Brand

Engineered a responsive commercial website for an established tile and sanitary products distributor. Built interactive product galleries, instant quote inquiry forms, and direct WhatsApp customer support integration, driving a +40% increase in inbound sales inquiries.

HTML/CSS · JavaScript · WhatsApp API · Responsive UI · Product Catalog

VetCarePlus — Veterinary Portal
2025

Freelance Client Project · Healthcare Clinic

Created a modern clinic portal for a veterinary hospital with automated appointment booking, detailed service packages, doctor schedules, and client reviews. Achieved 1.8s page load speed.

WordPress · Elementor Pro · Booking System · Healthcare UI
